

TABLE 22.3. The contributions of the dominance theory, and of faster male evolution due to sexual selection, can be distinguished by comparing two groups of mosquitoes

	Females Affected	Males Affected	Both Sexes Affected	Dominance Theory?	Faster Male Evolution?
<i>Aedes</i> (intact Y)					
Sterility	0	11	10	No	Yes
Inviability	1	1	11	No	No
<i>Anopheles</i> (degenerate Y)					
Sterility	0	56	20	Yes	Yes
Inviability	3	21	40	Yes	No
